Conversation 1

Behzad: How's everything, Amin? You seem to be busy these days, don't you?

Amin: I'm OK Behzad. I'm working on a new project. I'm really tired.

Behzad: But you know your health is really important, don't you?

Amin: I know. But what about work, money, responsibility, ...? We need to consider them all, don't we?

Behzad: Yes, but health is at the top of all.

My favorite teacher

The best teacher I've ever had was Mr. Lambert, my high school French teacher. He was short, with dark hair, a thick beard, and a big smile. His legs were short, too, so his arms always looked too long. He was a very good teacher because he always brought so much energy to the classroom. His classes were never boring because he was always active, trying to find new methods to communicate ideas. Because he taught French, English wasn't allowed in class, so he often had to demonstrate the meaning of new words through gestures and acting.

Importance of Parenting in a Child's Life

Parenting means taking care of children. Good parents are those who do their duties towards their children well. Good parenting is so important for shaping a child's future. This importance in child's life are highlighted in some ways as follows: a loving home is every child's right to grow up in to become a happy and loving adult. Also parents should meet their children's emotional and social needs. In addition, parents should be certain that their children are healthy and enjoy life. Providing a good education, both at home and at school is another parents' responsibility to children. For instance, by taking them out to parks, museums, etc., children learn to love and appreciate their society.
