Hello everyone. Today let's talk about why it's essential to save energy. Saving energy means using less energy in our daily lives, and it's important for a few reasons. First, saving energy helps protect our environment. Most of our energy comes from burning things like coal, oil, and gas. When we use less energy, we reduce the pollution in the air. This pollution harms plants, animals, and the earth itself. By saving energy we can help keep our planet clean and healthy.
